MR. GEORGE "DOC" JACOBS

DEDICATION

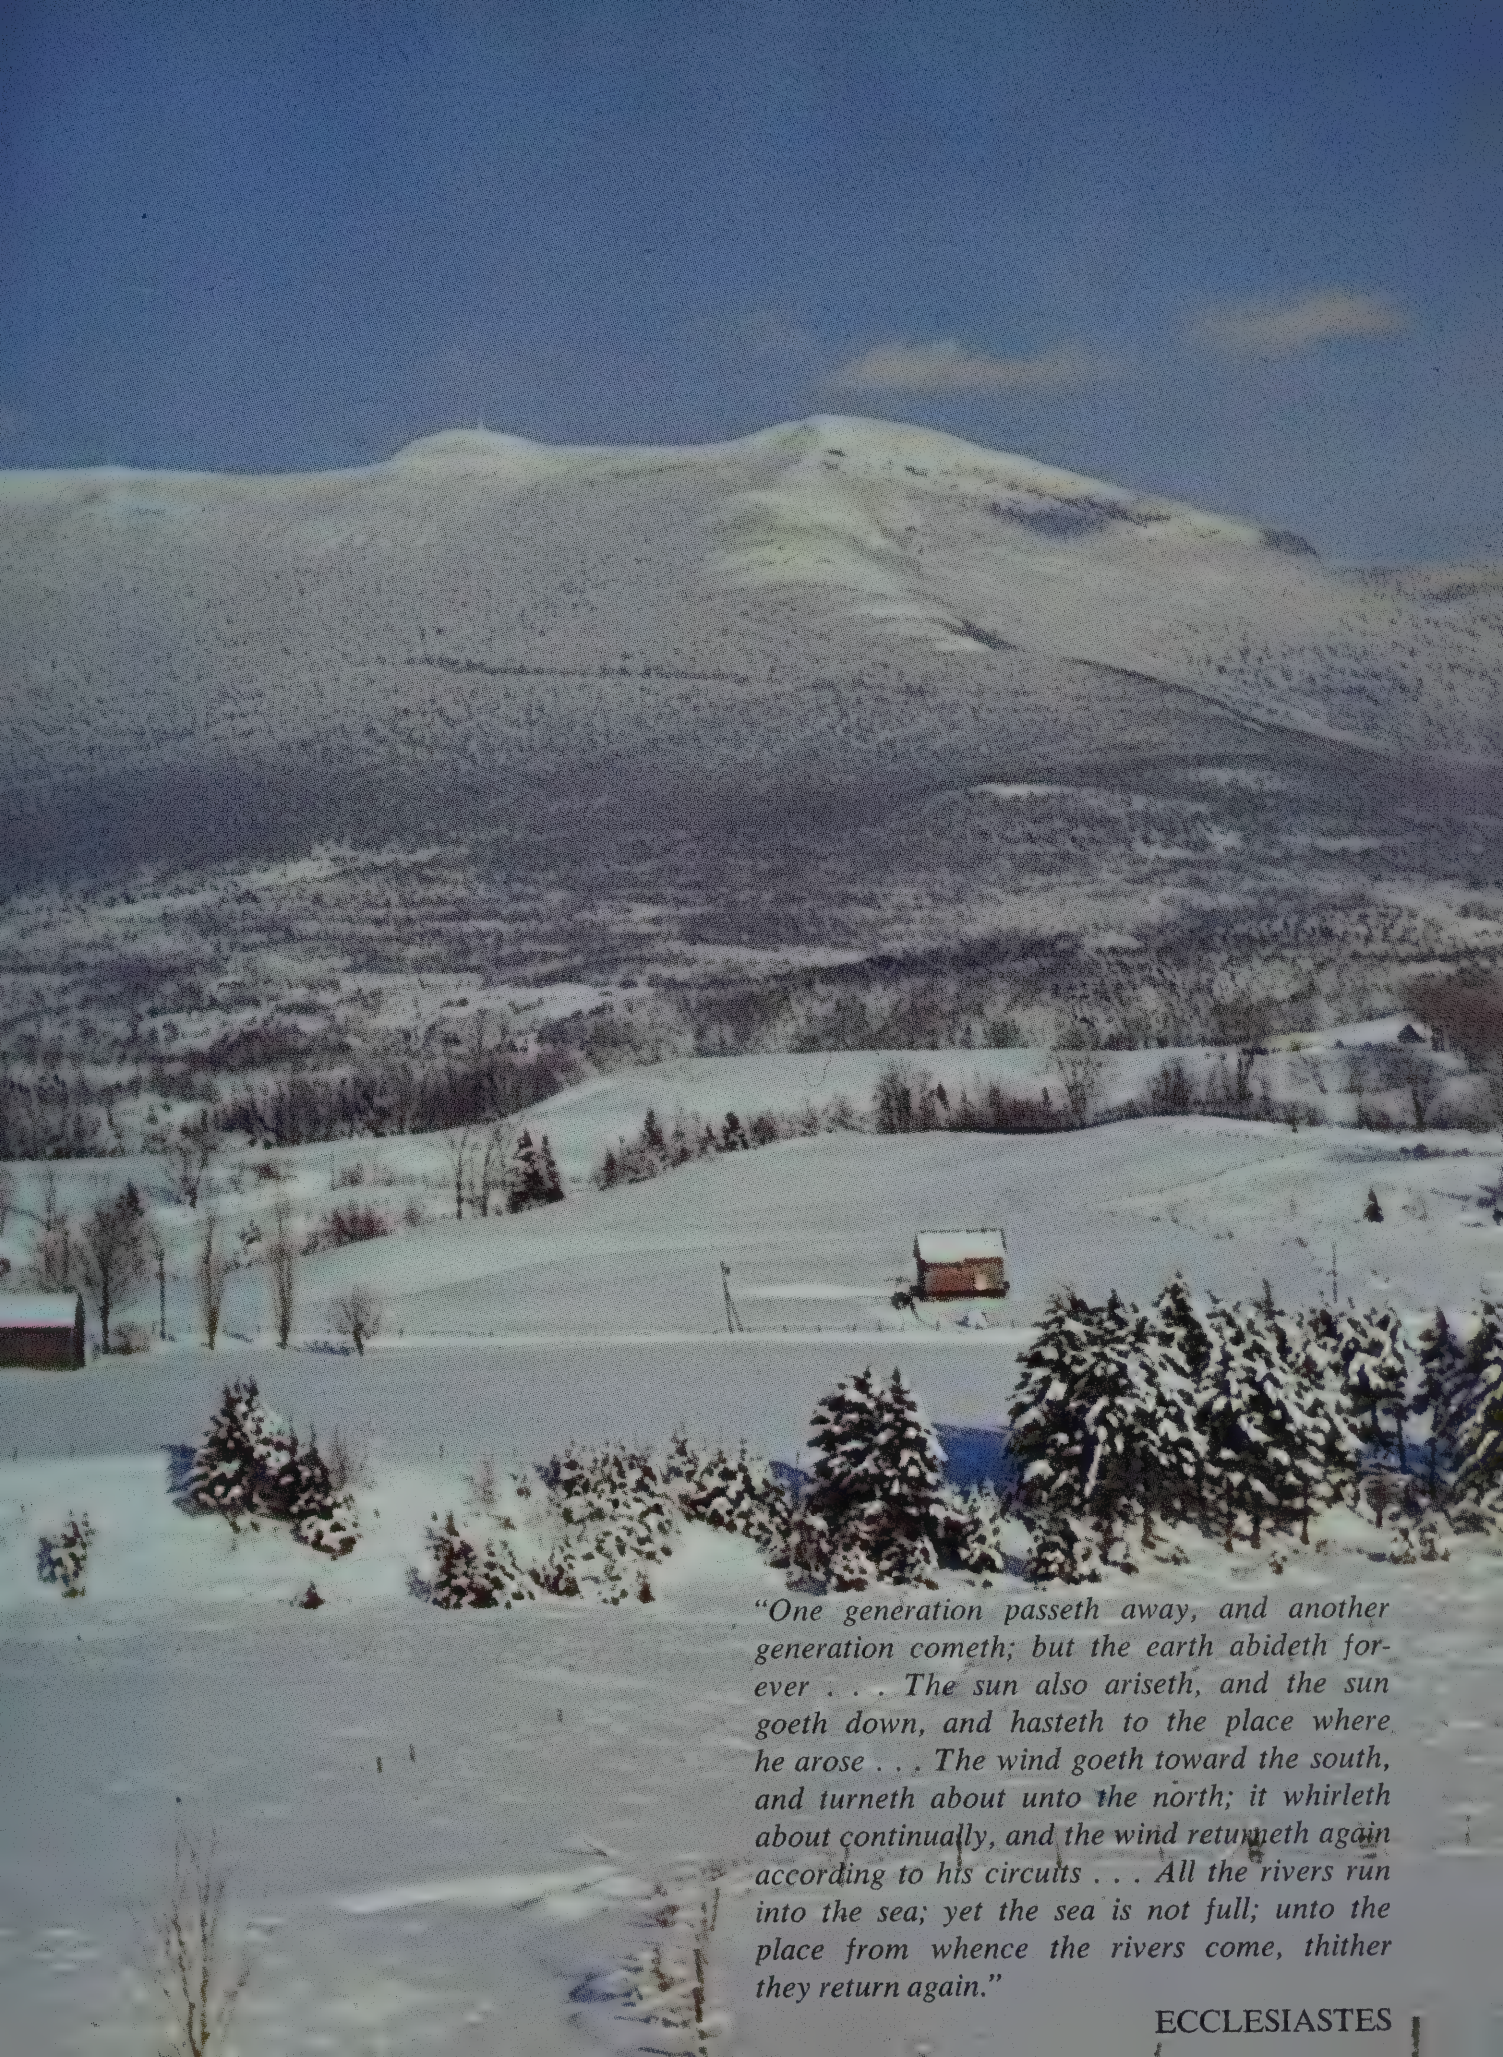

What fleeting words could ever hope to capture an appropriate expression of our gratitude for a man who has given fifteen years of his life to a college he has come to cherish? Guided constantly by the principles of a Catholic gentleman and sportsman, George "Doc" Jacobs has devoted himself untiringly and unselfishly to the enrichment of St. Michael's College.

A coach to many, a friend to all, "Doc" came to the Hilltop in 1947 to continue his career as a dedicated coach. What has transpired during his tenure at St. Michael's could fill pages upon pages, but we are not concerned here with his multitudinous achievements. Let it suffice to say that despite his arduous coaching duties, he has always had the welfare of the students in mind.

It is in the hope that we may, in some small way, repay our debt to George "Doc" Jacobs, who is above all else a Michaelman, that we, the Class of 1963, dedicate this yearbook.

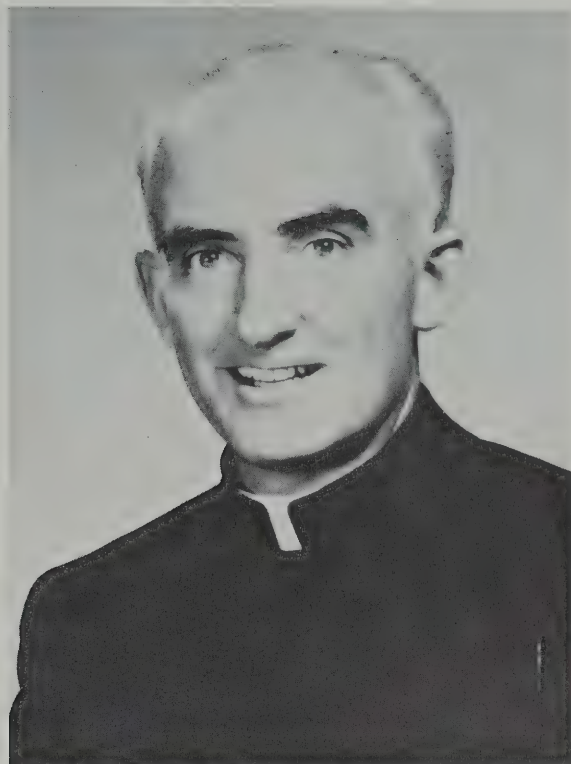

"One generation passeth away, and another generation cometh; but the earth abideth forever . . . The sun also ariseth, and the sun goeth down, and hasteth to the place where he arose . . . The wind goeth toward the south, and turneth about unto the north; it whirleth about continually, and the wind returneth again according to his circuits . . . All the rivers run into the sea; yet the sea is not full; unto the place from whence the rivers come, thither they return again."

If you are looking for a faithful worker with an insuperable amount of energy, Lin Abbott is your man. WSSE personified, he must have spent at least 25 hours a day at the campus radio station. While Lin never failed to do the job properly, whether it be cataloging books in our library, or distributing pamphlets for the Democratic party or even playing the clarinet, he yet managed to keep up with his studies with an admirable amount of distinction. If his fervor for perfection is any indication of his personal assets, Lin can't miss as an inspiring teacher.

"Give me a lever and I'll move the world." Determination is the keystone of Mike's endeavors; and success is the result of his dogged efforts. Realizing his destiny to become a man of medicine, Mike's sticktoitiveness has earned him offers from many medical schools. But academic success is only one facet of his achievements. When we think of Mike we not only remember a typewriter clicking in the dark but also the flying snow from his experienced skis, his nomination for president of our class and the tough job he accomplished in forming the Spirit Squad. Smiling through every prank he was involved in, Mike has had a full four years. There is no doubt but that he'll be a credit to the medical profession.

There is no one word which can be used to explain the character of the oldest member of our class. Such words as kindness, industry and patience simply scratch the surface of his luster! Paul waited a long time to continue his education and when he returned to the scholastic life he found many things had changed, but he conquered this barrier and has emerged a victor with his laurels! Paul always found time to give a kind word to anyone who passed him and always gave assistance to anyone who desired it. Added to the burdens of supporting a family, and achieving the highest academic standards, there were few class and school functions at which Paul was not seen. Success is something which will lie at his footsteps along the path of life.

"I read it three weeks ago when it was due" are the never-to-be forgotten words spoken by this brave pendant of Mr. O'Brien's law class. Not exactly reticent, "Little Bill" was always ready with the right words. If you know Beacon you must have been convinced of the superiority of the San Francisco Giants, Shaeffer beer, and pretty frauleins. Never known to lose an argument his presence hardly goes unnoticed. While keeping up with his scholastic work, Beacon yet managed to find time to raise rabbits, scare everyone off the slopes at Jeff, and establish himself in the thick of the Queen City Social Circles as a dashing cavalier. Bob is a man of many talents, so much so that he fits, probably better than any other, the prototype of a great collegian and true Michaelman. For four years he has put all his tireless energy and keen mind to the academic grindstone and the development of class accomplishment. Perhaps his most outstanding fame at St. Michael's has been achieved on the basketball court. This year marks the culmination of three years of successful varsity ball for Bob. With this as background and a well-groomed personality, we should soon see Bob putting his dean's list average into practice by becoming a standout in his chosen career field.

Zeke has notched for himself a reputation as one of the founding fathers of Kappa Phi Kappa and as St. Michael's delegate to the national convention in Washington. With these credentials Vinnie should be a future leader in the field of education.

STUDENT FORUM

Rev. G. I. Keating
Moderator

The Student Forum this year continued the pattern of growth of recent years both as an effective voice of the student body and an important asset of the daily life at S.M.C.

Under the effective guidance of President Patrick S. Bergin, The Forum successfully initiated numerous projects.

Ranking among the top achievements of a fruitful year were a "Pep" Rally, the re-establishment of a Winter Weekend and the production of a student directory, not to mention Career Night and the "lending library" of Graduate School catalogues.

As an auxiliary to the intellectual life of the community, the Student Forum Lecture Series was once again a resounding success, bringing to the campus several notable commentators. The Series began its season with a talk by Edwin Moss, a Southern Negro integration leader. Former counter-spy Herbert A. Philbrick also addressed the student body on the "Communist Conspiracy." To end the series, the Forum presented author Vance Packard, who elaborated on his research into American society.

DELTA EPSILON SIGMA

Delta Epsilon Sigma was born in 1939 during a group discussion of the National Catholic Education Committees. It was founded in order that the Catholic Colleges of the United States might offer to their outstanding students membership in an honorary society similar to Phi Beta Kappa. The Alpha Nu Chapter of Delta Epsilon Sigma was established at St. Michael's in 1941 by the late Dr. J. K. Durick, Rev. J. T. Purtill, and Dr. F. S. Quinlan.

Election to the Society is generally limited to members of the Senior Class, but each chapter is permitted to elect not more than two Juniors, two Alumni, and two faculty members each year.

Holding the positions of President and Secretary-Treasurer this year were Rev. F. X. Gokey, S.S.E. and Mr. D. MacDonald respectively.

ALPHA EPSILON DELTA

Alpha Epsilon Delta has an educational objective which is to stimulate interest in the medical profession and related fields as a career, and to foster excellence in undergraduate pre-medical studies.

The society sponsors activities and supplies information which are of interest and help to pre-medical students. It is in this regard that Alpha Epsilon Delta is in conjunction with the Pre-Medical Society.

The criterion for membership in the Fraternity is honorable achievement among pre-medical students.

KAPPA PHI KAPPA

The Fraternity, which is dedicated to fostering genuine interest in the professional and theoretical values of education, was guided this year by Mr. James Collins.

Fortified by an enlarged membership, the Gamma Alpha Chapter of Kappa Phi Kappa continued this year with its tutoring services for convalescent children at the area Hospitals, and was able to send a delegation to the 19th Annual National Convention in Washington, D. C.

PHI ETA SIGMA

Phi Eta Sigma is a national honorary society whose primary purpose is the recognition and encouragement of those students who had exemplified outstanding scholarship in their Freshman year. Membership is open to those freshmen with a cumulative average of ninety and no grade lower than a B.

A major activity of the St. Michael's Chapter of Phi Eta Sigma is the administration of a program of free tutelage for freshmen.

CROWN AND SWORD HONORARY SOCIETY

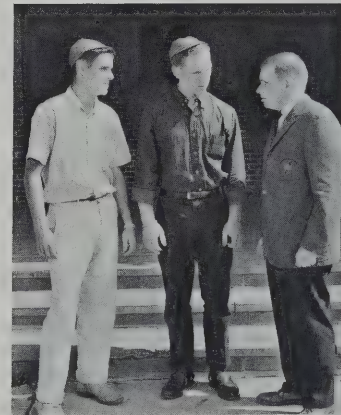

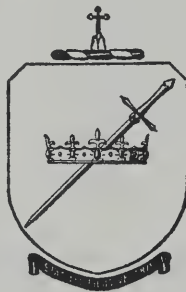

The men in the gray blazers have become a familiar institution on the St. Michael's scene. The Crown and Sword Honorary Society was founded in 1956 for the purpose of maintaining the good name of the College. They accomplish this goal by acting as the service arm of the student body.

Under the direction of this year's officers (J. Curtin, *Pres.*; J. Dyer, *V. Pres.*; J. Cao Garcia, *Sec.*; R. Moughan, *Treas.*; P. Carbonneau, *Hist.*), the Society has worked hard to achieve its aims. The motto of the organization, "*Stat Pro Filiis Vestris*" (Stand for Your Sons), illustrates its desire to represent the College and to help all who need its aid.

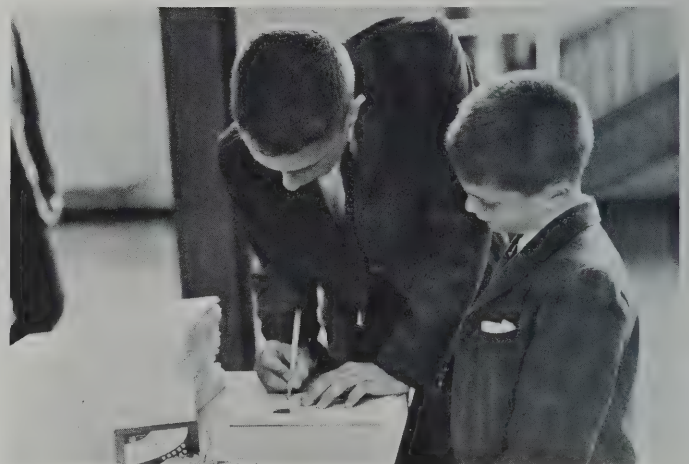

Ushering at the Masses and at the home basketball games is only part of the Crown & Sword's activities. Club members serve as "Big Brothers" to the incoming freshmen, organize the rallies before the "big" ball games, and help conduct the annual Christmas party at St. Joseph's Orphanage.

In that vague twilight where ideals meet reality, the 1963 Shield was born. Attempts to create a publication which presents, as far as possible, our unique way of life on the Hilltop, proved to be no simple matter. Yet despite the varied periods of elation and despair, of diligence and laxity, and finally of confidence, Ed Alger and his staff have given to St. Michael's College a new dimension in yearbook excellence.

To express individual appreciations would be an injustice, for in reality this book is the product of the Class of 1963.

The Michaelman

Is there a *Michaelman* this week? The question constantly asked of editor-in-chief Luis A. Villares showed the acceptance of *The Michaelman* as a vital factor in each student's life at St. Michael's.

By relating his editorials to campus events, Luis was able to convey positive ideas as possible solutions or improvements to college problems. His deep concern for the welfare of foreign students was widely known to all.

The thorough coverage of news was the primary objective of news editor Paul Simmons and his fine staff of reporters. The "Thursday" staff deserves high praise for its zeal and devotion to the printing of the newspaper.

Moreover, *The Michaelman* owes much of its success to the experienced and professional advice of moderator Mr. John D. Donoghue.

QUEST

The revival of literary interest at St. Michael's continued to receive further impetus this year as the *Quest* appeared in two enlarged editions. Building upon the firm foundations established in 1960, and subsequently expanded in the following years, these publications are firm testament of the ability of St. Michael's students, and their dedication to the ideals of Catholic Scholarship and Free Thought.

Under the direction of Mr. Bernard Gore, Moderator, Jim DeBiasio and his staff have sought to present a cross section of campus thought and experiences, combined with technical ingenuity, to produce what will become a new tradition on the Hilltop.

But as the challenge of its name implies, the magazine is not meant to achieve a single goal, but ever to increase the horizons of our lives—prodding those who take advantage of it into new and stimulating vistas.

SCIENTIFIC

The *St. Michael's Scientific* is published biannually by the St. Michael's Pre-Medical and Chemical Societies. This year, the *Scientific* had a dual purpose on campus. One was to permit the science students on campus to express their ideas in their fields of interest. The other, which is equally important, is an attempt to get away from the concept of separate fields of science which is so prevalent today.

This year the practice of publishing guest articles was continued, with articles being submitted by Dr. Henry Fairbanks of St. Michael's and Dr. L. J. Sanders, D.V.M. of Dover, New Jersey.

In accordance with the progress of the *Scientific* in the past, another new section has been added this year—"Developments in Modern Research." Its function is to present some of the latest developments in various fields of science.

GLEE CLUB

Once again, the Glee Club, under Mr. Tortolano's direction, managed to surpass its achievements of past years and ended the 1962-63 season as one of the top men's choruses in the Northeast.

Dreams give incentive, so much so that these fifty incentive-filled dreamers took it upon themselves to begin in November by presenting Peter, Paul and Mary, thereby raising funds to help realize the much talked about dream of appearing in full formal dress.

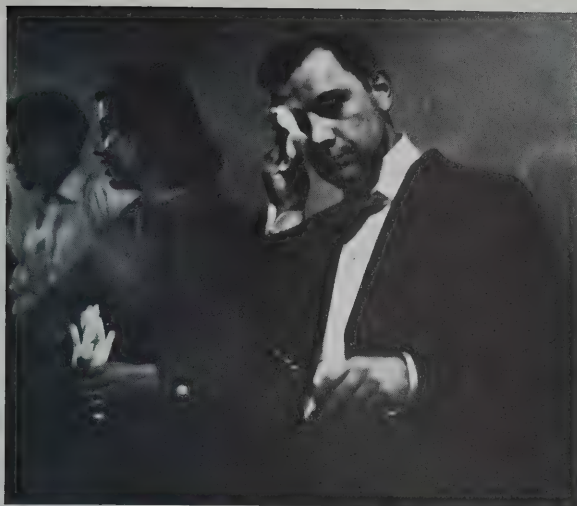

With the advent of the concert season, the "Singing Knights" found themselves scheduled to appear in an area extending from Maine to New York. Many audiences found themselves surprised and entertained by our debonaire men from Vermont who sang as well as they looked.

One always attempts to pick out the outstanding achievements of a year. Two of these, the purchase of tails and the Peter, Paul and Mary Concert, have already been mentioned. Excluding the "perfect" concert or the trip which was the most enjoyable, other highlights were the recording of a long playing record and the concert on campus which presented, for the first time in the United States, a Canadian Women's Glee Club.

As is traditional, Parents Weekend brought the year to a close. A year which will surely be called by many —The Year of Accomplishment!

CHOIR

The Choir, whose principal function is to sing at Sunday High Mass and participate at the religious functions of the College, has this year initiated a very interesting schedule. For the first time in its history the group had two off campus concerts with Champlain College and Green Mountain College.

Early in the year, the Choir sang at Isle La Motte, and as in past years, has had the opportunity to display its fine repertoire at the Mass of the Holy Spirit, President's Day, the Feast of Saint Michael and many others.

The fine selection of music, comprising works from many of the great Church composers is certainly a reflection on the Choir's director, and this year's officers.

KNIGHTS OF COLUMBUS

Since its introduction to St. Michael's College in November of 1959, the Father John Verret Council of the Knights of Columbus has realized an impressive variety of objectives.

Actively functioning through the common bonds of Charity, Unity, Fraternity, and Patriotism, Council 4870 has pledged its support to brother councils and other Catholic action groups for the benefit of the surrounding community. The Muscular Dystrophy Campaign and the St. Joseph's Orphanage are among the groups which received active participation and assistance from the Father John Verret Council.

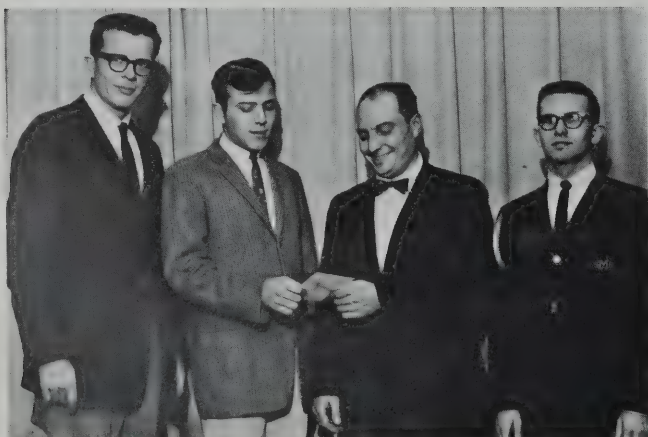

Last year, the St. Michael's College Chapter was honored with National Awards for the greatest increase in membership and insurance. For outstanding success in all phases of council activity, the campus organization received the Star Council Award for 1962.

We of St. Michael's College are proud to be a part of a progressive council, which is taking an ever-increasing role in the development of the true Christian gentleman.

HOLY NAME SOCIETY

Organized in October, 1962, to promote the spiritual welfare of the students, the Holy Name Society enables more students to participate in Catholic Action, and to perform corporal works of mercy. The success of the various activities of the Society throughout the year has been realized through competent leadership, enthusiastic student participation, and the helpful guidance of Fr. Ziter.

Approximately 100 of the 150 members have an active part on the 14 committees which direct the activities of the Holy Name Society.

Guided by Catholic principles and dedicated to the reverence for the Holy Name of Jesus, the establishment of a Holy Name Society was a natural consequence of our spiritual program on campus.

PRE-MEDICAL SOCIETY

Providing its members with incentive and information concerning medicine and related fields is the primary purpose of the Pre-Medical Society. Members are offered lectures by professional men and tours of medical facilities, as well as literature and films dealing with medicine, dentistry and the basic sciences. Further, a complete library of medical and dental school catalogues is maintained.

The Pre-Medical Society, in conjunction with the Chemistry Club, also sponsors the Annual Science Night and the St. Michael's *Scientific*. To complete a busy year, two blood drives were conducted by the Society.

MODERN LANGUAGE CLUB

The Modern Language Club provides an opportunity for the students of St. Michael's, who are studying a foreign language, to become better acquainted with and to better appreciate and understand the traditions and cultures of the peoples whose language they are studying.

This objective has been achieved through a program which included guest speakers, literary exhibits, presentations of cultural films, and special trips where club members have an opportunity to attend foreign theater productions.

The success of this organization is manifest by its rapid development in the relatively short period since its conception.

BUSINESS FORUM

The main purpose of the Business Forum is to foster initiative among the undergraduates interested in business affairs and to contribute to the development of Catholic lay leadership by providing an outlet for leadership in campus activities. This is achieved, with the help of Professors Fortune and Knight, by placing all co-curricular activities more directly in the hands of the members.

During the 1962-63 academic year, the club's membership totaled 150 students. This included 20 Trinity College students and 12 foreign students. This was the largest membership in the club's history. Included among the many activities were: prominent business speakers, several movies, a stock contest, and an annual dinner meeting which culminated a successful year.

CHEMISTRY CLUB

The measure of success of an education is the practical application of the theoretical learning derived from class and laboratory work. Supplementing the extensive routine Chemistry curriculum, the Chemistry Club presents its members with invaluable information and experience which range from lectures, field trips and movies, to the construction of a mass spectrograph.

In view of the exceptional number of science concentrators, the Chemistry Club has become an active participant in the co-curricular program on campus.

EDUCATION CLUB

In its fourth year as a recognized campus organization, the Education Club this year found continued impetus for its revitalization program in its new moderator, Dr. Robert Giroux '53.

Current problems and difficulties in our educational system were the topics dealt with during the first semester series of lectures. An address by Msgr. John Lynch, Diocesan Superintendent of Schools, who discussed "The Role of the Parochial School in the Community," proved to be the highlight of the year. Culminating an active year of speakers and documentary films was an address by Dr. Robert Barry of the University of Ottawa.

First Row: J. Daly, President; J. Collins, Vice-President. Second Row: R. Moughan, Treasurer; J. Johnson, Secretary.

ENGLISH CLUB

The English Club has firmly established itself as one of the organizations on campus. Working closely with the College English Department, the Club has promoted a series of informal seminars.

The three main divisions of the Club have cooperated to provide a diversified program of cultural enrichment. The literature section concentrates on contemporary authors in its discussion groups. Students who possess writing ability are encouraged, through constructive criticism, to further their creative talents. The poetry division analyzes poetic styles and symbolism and also reviews student efforts. The scope of literary interests is further expanded through a study of Drama in which current plays are investigated.

First Row: A. MacDonald, Vice-President; R. Stoeckel, President. Second Row: K. Weixel, Treasurer; J. McLaughlin, Representative; P. Tamburello, Secretary.

POLITICS CLUB

Under the capable and experienced leadership of its moderator, Professor George Olgyay, the Politics Club has enjoyed a fruitful year. Sponsoring a varied program of activities, the Club has attracted a more enthusiastic participation among its members.

Several prominent political figures have lectured to interested students under the auspices of the Politics Club. The highlight of this year's activities was the annual visit to the nation's capital in Washington, D.C.

The Club this year has fortified its position of respect by generating student interest in political problems and civic affairs.

First Row: M. Smith, Vice-President; J. Daughton, President. Second Row: D. Ladizki, Treasurer; J. Ketterson, Secretary.

SOCIOLOGY CLUB

Those students interested in the Social Sciences find in the Sociology Club an integral part of their education. Under the learned guidance of its moderator, Mr. Joseph Powers, the Club has successfully provided an atmosphere wherein the members may intelligently discuss problems related to the field of Sociology.

A lecture by Rev. Lorenzo D'Agostino, S.S.E. and a trip to the Vermont State Prison at Windsor were but two of the outstanding events which helped round out this year's schedule. Annual polls and similar projects provide channels through which the members may gain further insight into the practical application of classroom discussions.

NEWMAN DEBATE SOCIETY

Once again the Newman Debate Society had a successful year in the New England forensic circles. Under faculty moderator, Professor Stewart, and coach, Dr. Frank Morriss, the team saw action at the University of Vermont, Dartmouth, Middlebury, Harvard, and other major intercollegiate tournaments. Dr. Morriss, Ass't. Editor of the Vermont Catholic Tribune, gave generously of his time and experience to guide a team handicapped by the loss of several graduating veterans.

Working from its new office and research center in Alliot Hall, the club was represented at major tournaments with on the spot coaching by President Tom Roney and Vice President Joe L'Herault. L'Herault and Secretary Tom Johnson bulwarked the Varsity team and untiringly worked to contribute to the Society's success.

DRAMATIC SOCIETY

After several years absence, a Dramatic Society again appeared on St. Michael's campus. Mr. Donald Rathgeb, manager of the Summer Playhouse, assumed the responsibilities of moderator and much was accomplished during the organization's first year. Two one act plays, performed in the first semester met with overwhelming success. Later in the year, Shakespeare's *Comedy of Errors* again found an appreciative and pleased audience.

A Drama Workshop was also established for students to test their talents in the theater. The infant society passed its final with room to spare and earned an esteemed position as a cultural part of campus activity.

J. L'Herault, *Vice-President*; J. Johnson, *Secretary*; T. Roney, *President*.

NFCCS

The St. Michael's Chapter of the National Federation of Catholic College Students commenced the year's activities with a stimulating appraisal of the Cuban Situation by Dr. Cleveland Williams.

In conjunction with Trinity College and the Newman Club of the University of Vermont, periodic discussion groups were held which dealt with current problems of Catholic College students.

In its effort to gain complete student participation the NFCCS contributed greatly to the success of this year's annual May Day program.

WSSE

The phrase "This is WSSE, 570 Kc on your radio dial" was heard from 3 pm until midnight during the 1962-63 academic year. Beginning the year's operations during Freshman Week, WSSE saw its third year of broadcasting from the new Mike-town studios.

Physical growth of the campus provided growing pains regarding transmission until WSSE acquired a new sound technically, with the purchase and installation of a new 25 watt commercially produced transmitter.

With "Campus Information Radio" as the slogan, WSSE continued to provide live coverage of such activities as the Student Forum Lecture Series, guest speakers, and other campus events. Financial help from Student Forum enabled WSSE to broadcast the SMC-Northeastern tilt from Boston with colorful Mike Martin doing play-by-play. News director Jim O'Brien successfully expanded campus news coverage and went even further to include happenings at area campuses as well. Mike John and Ed Creem provided the spark that brought about changes in the program schedule at the start of the second semester. Musical programming was now more flexible and the schedule was rounded out with such innovations as "lost and found," "for sale," rides wanted, club meetings and activities; in short, the classified ad column of the air.

WSSE is proud to continue to serve St. Michael's in the communications media of radio.

SPORTS

"Action is with the scholar subordinate, but it is essential. Without it he is not yet man."

Ralph Waldo Emerson
"The American Scholar"

The St. Michael's College Booters, under the supervision of Dr. Armando Citarella, played their best game this year in an exciting tilt against powerful Middlebury. Ranked nationally last year, and an annual power in soccer circles, the Panthers were decisively outplayed with the Knights upsetting them by a 2-1 tally. Compiling an overall record of five wins and five losses, the soccermen were 2-2 in New England Intercollegiate Soccer League play, and 4-1 in Vermont competition. Highlighting the season was the defensive performance of the team. The work of goalie Dick Endrelunas made the crucial difference in several important games. In ten contests, Dick made 111 saves as opposed to 16 scored. Offensively, Humberto Cosenza was an inspired player all season. After sustaining an injury, he rallied to score seven goals in as many games. Juan Tamayo made it a strong one-two punch with five goals.

SOC

Prospects for next year appear excellent. One bright light is Miguel Gazel, perhaps the strong center forward Coach Citarella has been looking for. Enhanced by this promising player, and with a hardened corps returning next year, the Knights could have an exciting season ahead.

VARSITY BASKETBALL

It was a season of heartache and uncontrollable joy. In his fifteenth year at the helm, Coach "Doc" Jacobs produced a St. Michael's team that was capable of great basketball.

Faced with the task of replacing two starters, Jacobs came up with two remarkable sophomores in Richie Tarrant and Ed Kryger. As individuals they sparkled, and they fit perfectly into the team.

The 1963 Knights had as co-captains Walt Baumann and Fred Cerrato. Baumann, a forward, scored from everywhere as he ended with a 17.3 p.p.g. average. Cerrato, a flashy guard, could dazzle any opponent into submission with his ball-handling wizardry.

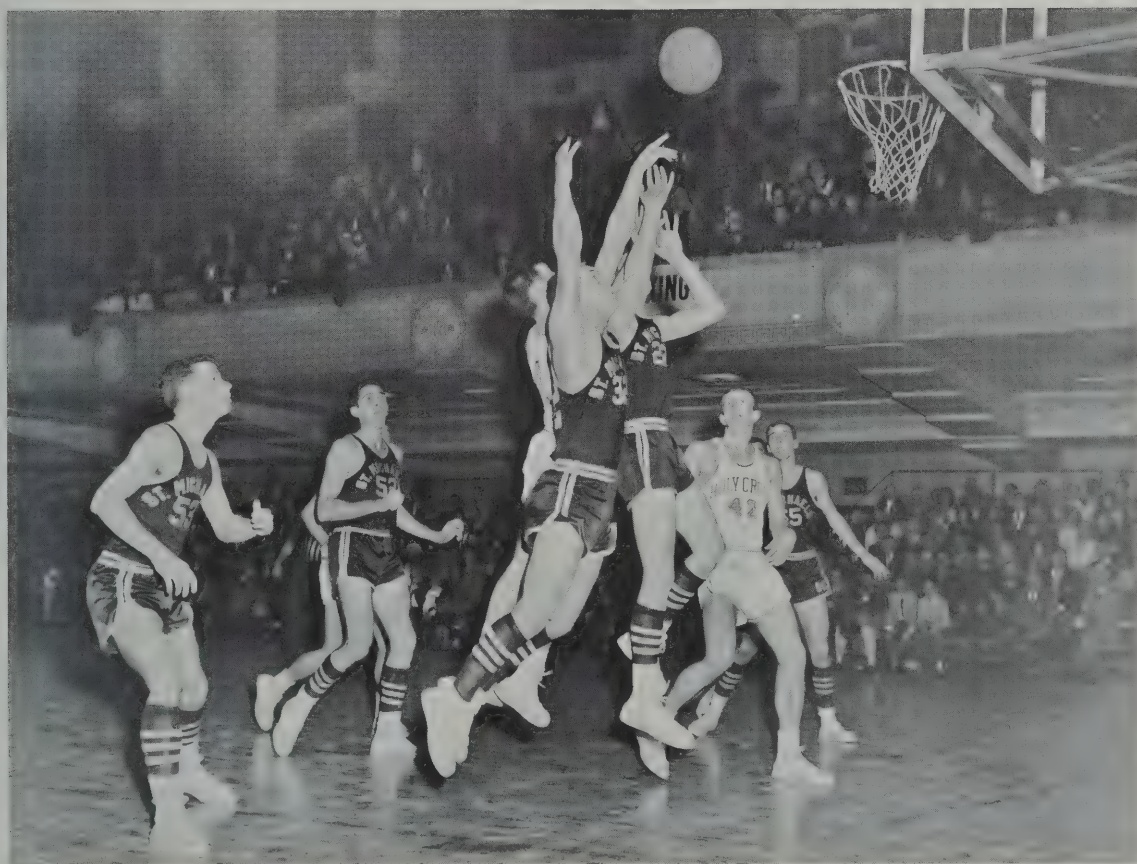

The fifth starting slot was given to the capable hands of Junior Ed McDonnell and he paid handsome dividends as he ripped the cords for a 10.9 p.p.g. average.

The season started on a sour note when the Knights journeyed to Waterville to engage the powerful Colby Mules. The team fell to the phenomenally hot hands of the Mules, 72-66. Walt Baumann and Ed McDonnell shared scoring honors with 17 points.

The Purple Knights started on the victory trail with a lop-sided 84-61 disposal of Norwich; and followed it up with a 70-53 triumph over Middlebury. Next came the "big one" with the mighty Crusaders of Holy Cross. We gave it a valiant try but fell short by a 60-51 tally.

Coming back from a three week layoff, the Knights beat Hartford U. 81-70 and demolished Norwich 78-53, and Middlebury 87-50.

The high-flying Hawks from St. Anselm's were the next to face the Jacobsmen. Remembering last year's humiliating defeat, the Knights wanted a sweet revenge. Down 33-19 at the half, the Knights came out of the locker room determined to play the brand of ball they were capable of. It was a mountainous task, but with six seconds to go, Walt Baumann made the play that broke so many hearts—and healed so many more. At the charity stripe for two shots, Baumann sank them both for a vindicating 70-68 win. With St. A's out of the way, the first half of a brutal assignment was completed. Northeastern was next.

The Huskies from Boston upheld their number one rating. It was a bitter battle. We were with them all the way, ending up six precious points short, 62-56.

Returning to the home floor of the Auditorium, "Doc" Jacobs' charges buried LeMoyne College by 18 points, 74-56. Rich Tarrant was high man with 24 markers.

Heartbreaking losses to Assumption, 68-62, and Vermont, 90-77, followed, but then the Purple Knights went on a scoring rampage.

They prepped for the second U.V.M. game by dumping Stonehill 74-62. The "blood" game proved to be no contest for the overpowering Knights. Richie Tarrant played like a man possessed, scoring 27 points, hauling down 23 rebounds, and holding Benny Becton scoreless. This time the Cats crawled off the floor to the tune of a 88-62 drubbing.

A.I.C. and St. Lawrence felt the wrath of Saints too. Leading the Aces by 26 with still ten minutes to go, the Purple and Gold left the Auditorium with an easy 84-68 victory. Then the Larries were victimized by an 87-63 massacre.

The St. Michael's scoring record was smashed when the 1963 Knights tallied 109 points against an outclassed Merrimack quintet. Co-captain Walt Baumann burned the buckets for 36 points.

Traveling to Garden City to take on Adelphi for the regular season's final encounter, the Knights bombed their hosts 73-61. Baumann, Tarrant and Kryger teamed up to pull down a remarkable 43 rebounds. In an exhibition game the following night the Jacobsmen succumbed to the NYAC 83-72.

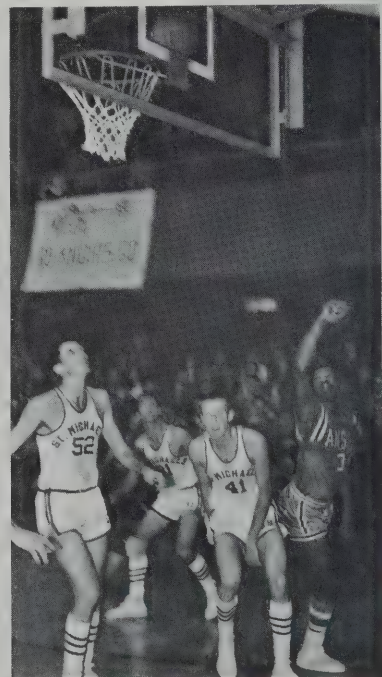

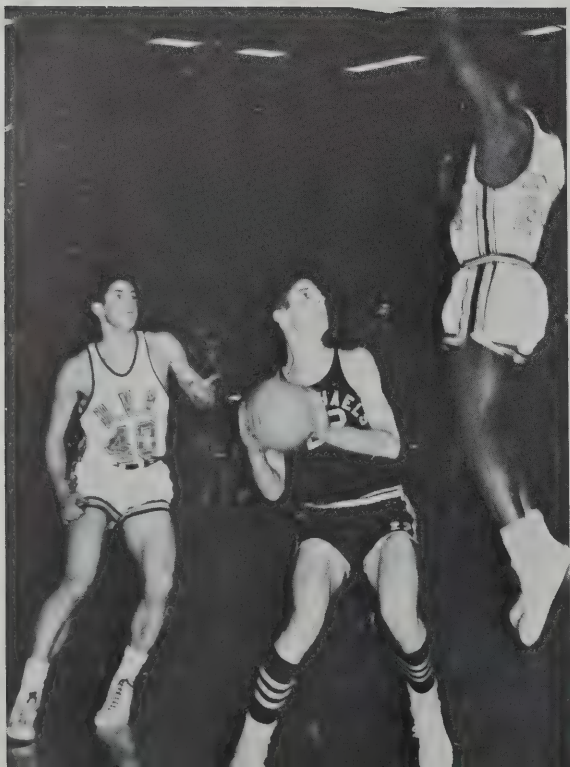

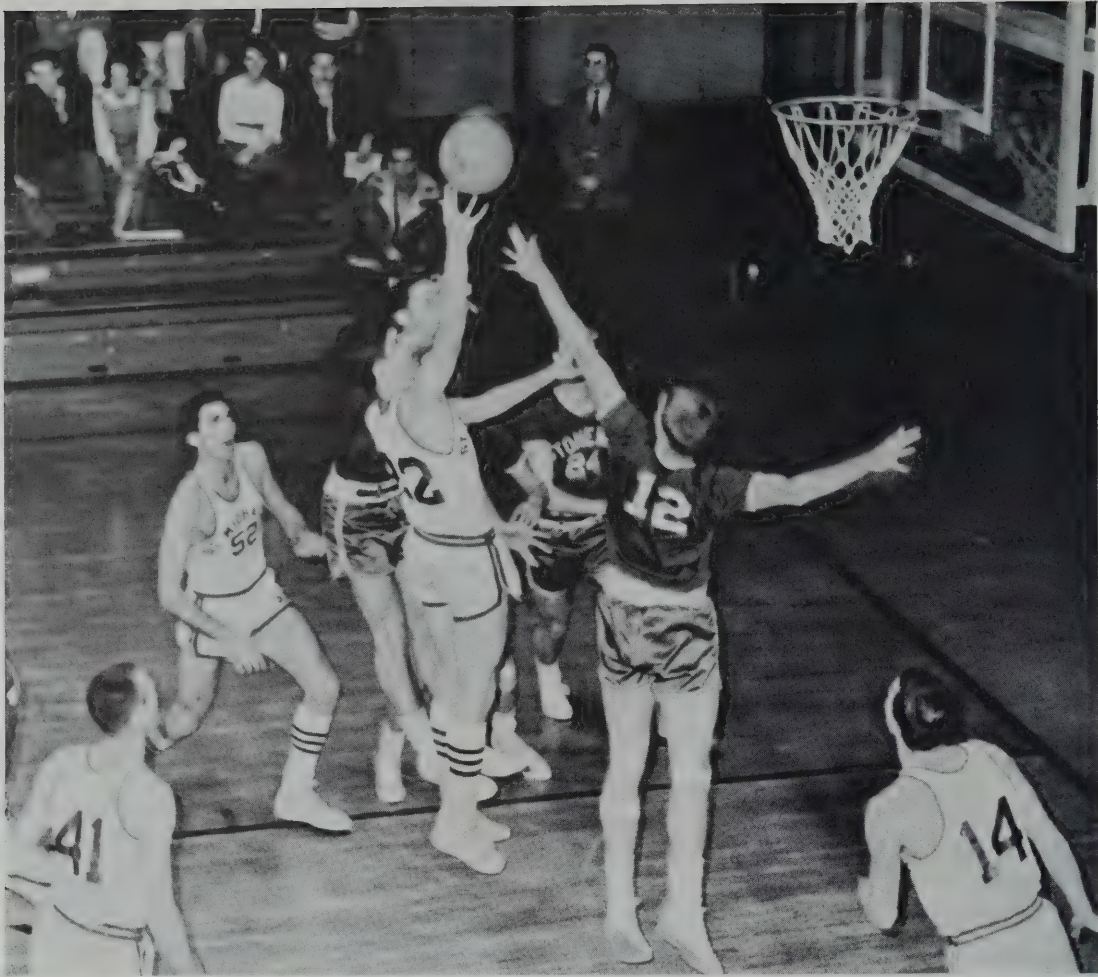

The St. Michael's hardwood quintet closed out the season with a 13-5 record, tenth best in New England. No state team has upset our championship hold since 1953. We were unbeaten at home and ran the string here to 14. We lost four seniors, and the gaps will be difficult to fill, but chances are excellent that 1962 frosh high scorer Vince Kazalonis and transfer Jim Dooley can do the job. Phil Taylor, this year's Freshman high scorer, is sure to make it a struggle for the backcourt.

Walt Baumann receives the first annual presentation of the Knights of Columbus trophy for *Outstanding Achievements in Sports* from the Governor of Vermont, Philip Hoff. Walt was also one of ten players chosen for the E.C.A.C. All East Small College Team and named to the WCAX All Vermont Team. In addition Walt received Honorable Mention from both the Little All-American and Catholic All-American Teams.

FRESHMAN BASKETBALL

It was an up and down season for Coach Ed Markey's Purple Squires. Plagued by the loss of four men, two of them starters, the Markeymen still managed to finish the season with a 5-6 record.

Guard Phil Taylor was the key man for the frosh hoopsters. Taylor dropped a total of 285 points through the hoop for a 25.9 p.p.g. average. A remarkable shooter, Taylor notched a 49.5 percentage from the floor and a 71.3 mark from the foul line.

Rounding out the starting quintet were Bill Gaughan, Ron Racine, Buddy Abbott, and Kevin Gokey. Both Abbott and Gokey improved tremendously as the season progressed and were outstanding down the stretch.

The Squires averaged 65.7 points a game and pushed Markey's coaching record to an admirable 69-15 mark.

SKI TEAM

The ski team, the only Catholic college four-event team in the nation, had quite an active year under coach Joe Powers. The team started the season with a triangular meet with the University of Vermont and McGill University. Colin Fitzsimmons, a sophomore, placed first in the jumping event with a 136.4 point total and a best jump of 79 feet.

The team next journeyed to the Paul Smith College Carnival. Alpine team member Greg McClallen and Fitzsimmons were team standouts at the meet.

The climax of the season came when Saint Michael's played host for the EISA class B championship meet. The Knights managed to take eighth place with a point total of 419.8 among 14 teams.

The outlook for next year seems good as all members of both the alpine and nordic teams will return for at least another season at the improved jump.

VARSITY BOWLING

The St. Michael's Varsity Bowling League finished second this year in the Northeastern Division of the National Intercollegiate Bowling Association.

Team Captain Charlie Boyer paced the team to their 14 and 13 record, and a total of 18 points. Boyer was joined by Senior George Hartley, Junior Ed Pogoda, and Sophomores Don Morse and Bob Hladik. The team's high game was 1,004, which was top in the league. Their high series mark totaled 2,789, which was second only to Siena College's 2,792.

VARSITY RIFLE

S. Sgt. D. M. Deeves led his varsity rifle team to a 4-6 record in New England Intercollegiate Rifle League matches this year. The Knights outshot Middlebury, UNH, Maine, and Bowdoin, while losing to Nasson, Norwich, Dartmouth, Vermont, MIT, and Harvard.

Bright spots in the season included Senior Dave Samson's all time high of 289 against Dartmouth, and a new team high of 1,385 against Vermont.

Harry Haarup, Captain, Dave Samson, Larry Cashman, and Bob Hladik were outstanding marksmen all year for the St. Michael's sharpshooters.

ED MARKEY

Edward P. Markey, Director of Interclass Athletics

Coach Ed Markey, well known for his work with the basketball and varsity baseball teams, lends his considerable talents to the formation and guidance of an interclass athletic program. During his tenure at his alma mater, Ed has produced a well-rounded intramural sports program which is a tribute to the college, its students, and to a man who knows his business.

INTERCLASS SPORTS

FOOTBALL

The Juniors started this year where they left off in the Fall of 1961, virtually running away from the field in the race for gridiron laurels.

The spotlight was once again focused on Junior signal caller Mickey Moughan, who continually displayed his superior capabilities. Coupled with flashy half-backs Stan Buczak and Bart Nyhan, and elusive ends Ed Goutas and Richie Moyan, the Juniors presented several dazzling exhibitions.

The Seniors tried hard to catch the Juniors, but a gallant effort fell short. Wide sweeps, quick passes, and bone crunching blocks characterized the Senior attack. Blocking back Tom Derosier was the brightest light in a tough back-field. He was responsible for the safe escort of halfbacks Jim Johnson and Bob McGee on the sweeps, and he usually had little difficulty impressing the defensive ends with his power and speed.

Although the line was big and tough, Ray O'Keefe, Fran Walsh, and Gerry O'Neil soon convinced opponents of the utter futility of a running attack of any sort.

The Sophomores jelled late in the season, but proved to be a challenge all the way. Coach Mike Tranghese molded his pupils into an efficient unit with the promise of causing trouble next year.

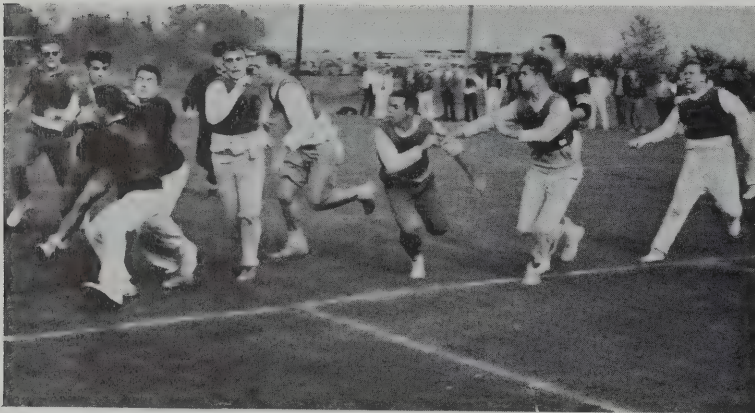

The Frosh had difficulty in presenting a united front, but their outstanding linebackers admirably displayed agility and promise.

INTERCLASS BASKETBALL

The potent Sophomore scoring machine edged out a tough Senior quintet in the finale of the Interclass Basketball League season. It was a nip-and-tuck game right down to the final seconds.

The seniors, led by guards Joe Morgan and Dick Powers and forwards Jim Dyer and Jerry O'Neil, gave the title quest a valiant try, but a manpower shortage and stiff competition resulted in their downfall.

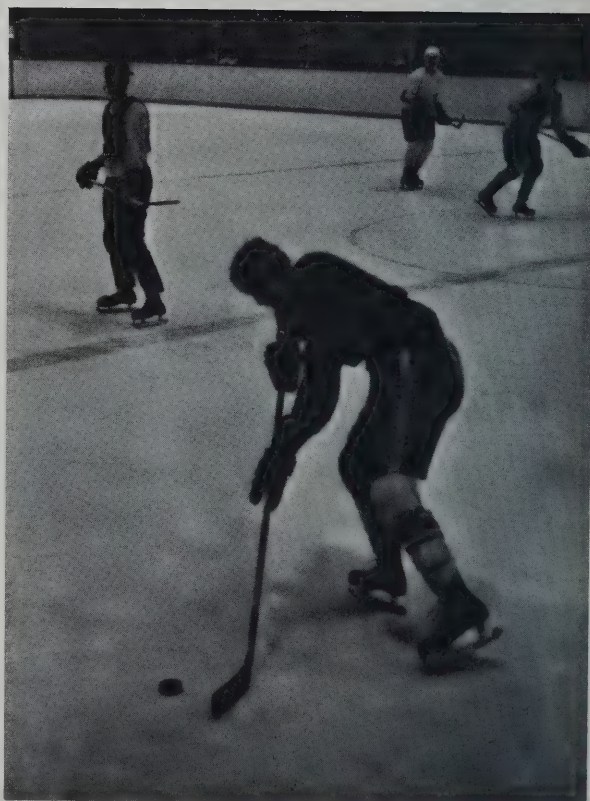

The champion sophs were led by John Goodrow, Frank McKevitt, Tom Edwards, and Mike Hadlock, Goodrow played pivot with ferocity and took down rebounds with astounding regularity. Edwards, a speed guard, was the floor leader of the club. Hadlock and McKevitt played iron-man roles under the boards.

The sporadic juniors, led by Dick Endrelunas and Joe Mauceri, came in third, due mainly to their inconsistency, while the frosh with league-leading scorer Dick Curtiss fell far short of the pennant, although they did give the upperclassmen some anxious moments.

HOCKEY

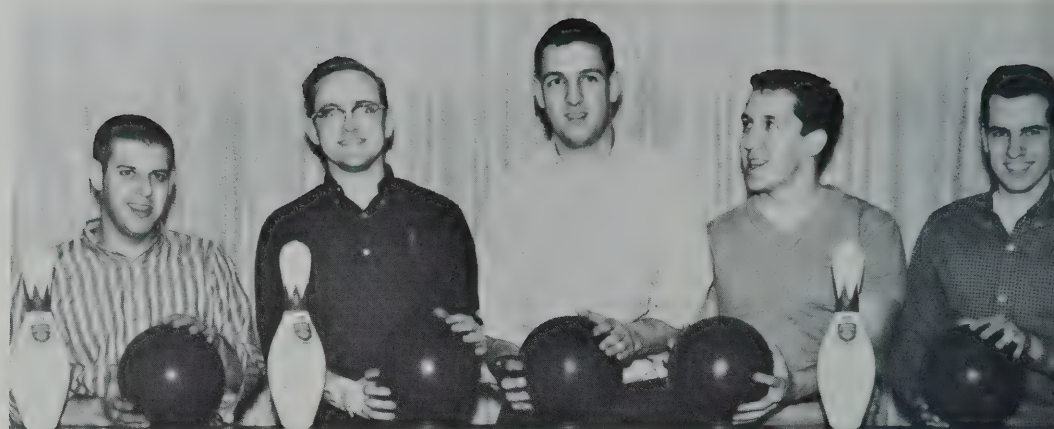

A new rink and the acquisition of some much-needed equipment set the hockey buffs off on the right foot this season. The skaters were given nothing but trouble by the weather and had to be content with an abbreviated interclass schedule. To make up for this, an all-star team was chosen which competed with local teams.

The highlight of these games was a scrimmage with the University of Vermont. The all-stars were seniors Tom Moylan, Joe Hogan, Roger Gill, Dave Gadbois, a particularly valuable player, and sophomore goalie Jeff Donovan.

With as much interest in hockey as was shown this year, it may be possible to visualize the eventful existence of a St. Michael's College Intercollegiate Hockey Team sometime in the future again.

SENIOR KING PIN TEAM: G. Giuffrida, C. Boyer, *Captain*; G. Hartley, G. Anemaet, J. Purgar.

KING PIN

The Senior Team rolled to a first place finish in the St. Michael's Interclass King Pin Bowling League. Senior George Hartley copped the league scoring honors with an average of 179. Sophomore Bob Hladik was in the runner-up spot in the high average race.

The Seniors edged out a tough Junior Team for league laurels. The Juniors were paced by Ed Pogoda, John Colangelo, and Jack Burke, and made it an extremely tight race earlier in the season, but faltered in the stretch.

The Sophomores ran hot and cold but held on to third place, finishing up ahead of the Freshmen.

Team members D. Morse and J. Purgar check the score sheet.

Under the direction of Athletic Director, "Doc" Jacobs, the Weightlifting Club fared exceptionally well during its first year. Workout sessions were held every week night under ample supervision with fine equipment available to all members of the club.

A prime purpose of the club was to promote competitive weightlifting, and with this end in mind the club purchased a 400 pound set of Olympic Weights. Secondly, the club provides weight training whereby the members can improve their health.

An interclass meet held during the Spring proved very popular, hinting at the further success the club will surely have on campus.

TO THE CLASS
OF 1963

Commencement for many of you means that your formal education is over, and that you are going out into the world, many of you into business and professional life.

Whatever your work in the future, the Vermont Structural Steel Corporation reminds you that in life, as in construction, quality depends on materials. Put into your life the best that you have to offer, and you will always have cause to be proud.

Acknowledgment

To attempt to express my sincere appreciation to the many people who have made this annual a reality would be a task too difficult to perform.

The efforts of the staff speak for themselves, yet, there are many individuals whose invaluable assistance merits special recognition. My deepest personal appreciation is extended to Mr. John Donoghue, our moderator, for his untiring assistance and technical advice.

Further acknowledgment must also be given to E. J. Kirk, the yearbook photographer; to Fr. Leon Paulin for the use of his photographic facilities; to Larry Dugan and Ron Helie for their photographic assistance; and lastly, to Mr. Roswell Farnham and the entire Wm. J. Keller Inc. organization for their skill, artistry, and craftsmanship in assembling the 1963 SHIELD.

Edwin Alger
